

# MATERIAL PROPERTY DATA SHEET

## WattleFence™

Temporary • Biodegradable • Sediment Containment Device

### DESCRIPTION

The WattleFence is a patented sediment retention device constructed using a fleece of coconut fiber wrapped in a biodegradable jute woven fabric. The finished WattleFence has a 9" height, 100' long with a 6" splash apron. To support the WattleFence units wood slats are stapled at 18" intervals along the length of the fence and used with ajute backstrap to constrain the device to free standing wood stakes. The Wattle Fence provides the combined features of wattles and silt fence including sediment reduction and turbidity reduction, while using 99.99% biodegradable components.

#### Material Content

Fiber Infill	100% Coconut fiber Fleece
Outer Fabric Wrap	100% woven jute fabric
Backing Slats	1.5" x 0.75" x 9"

#### Standard Roll Sizes

Nominal Height	9 in	(23 cm)
Length	100 LF	(30.5 m)
Splash Apron	6-8 in	(15-20 cm)
Unit Weight	22 lbs ± 10%/100 LF	

#### Design Property

Design Property	Typical
Maximum Flow Through Rate	20 gpm per foot
Long Term Flow Rate*	10 gpm per foot
Approximate Filter Openings**	1.0 mm
Free-Flow, Single Fence Turbidity Reduction	22%

\* As sediment laden flow passes through the WattleFence, the fabric blinds, reducing flow rate and improving sediment capture.  
 \*\* Filter opening defined as 95% finer grain size in material collected downstream of WattleFence in flume testing. Thus, 5% of sediments collected were equal to or greater in diameter than filter opening.

Patent No.: US: 8,776,346, US: 8,821,077  
 MX: MX/a/2009/014256, CAN: 2,691,455

## DISTRIBUTED BY:

ASP Enterprises, Quick Supply Co., Bowman Construction Supply & Cascade Geosynthetics are sister companies that serve customers from the Midwest, across the Rocky Mountains to the Pacific Northwest. Together we supply customers with a variety of environmental construction materials including erosion and sediment control, geosynthetics, stormwater management, drainage products, hardscapes and outdoor living, revegetation and soil amendments, waterproofing solutions and more.

We are full line distributors of environmental construction materials for all project types. Contact us for assistance with a project or a quote on products. From specification recommendations and project development to installation and completion, we're here to help with all of your site solution needs. Our warehouses are stocked with readily available inventory and we offer same and next-day deliveries.
