DESCRIPTION

Falcon Pins by Western Green are a fastener designed to secure erosion control mattings in place with improved pull-out strength. The Falcon HP Hex Pins have a unique hexagonal shaped head and lengths of 6", 12" or 18" configured using a 0.16" (4.0 mm) diameter wire. The integrated hex head can replace the need for a washer/pin combination. With the hex head shape, the HP pins are easy to install by hand, mallet, magnetic staple stick, or using a hand drill with a 1.5" socket attachment or a custom driving socket. The Falcon HP pins are galvanized and made in the USA.
